LB 170, 170A

bill should be placed into effect and as Senator Dworak said a moment ago, there will be two sessions where people have a chance to hear it. There will be two years where they can make changes if they feel it's necessary but for us to sit here now and not try to put this into effect, I think we are adding to the confusion because this is a procedure that two interims and one session can correct if we find it isn't working according to what we think it's going to do and I remind you that Utah has it fully implemented and it's a good piece of legislation. I move for the advancement of LB 170 as amended.
